Expiry date 03-06-2015

Dear Sir,

We have the pleasure to offer you a statement for

Check ATEX 95 (Directive 94/9/EC) certification

Manufacturer	Engineered Controls Int. Inc.
Product	Product Group as defined in RegO L500 catalogue: LP-Gas & Anhydrous Ammonia Equipment (issue 1999)

Based on the information received from you, i.e. L500 catalogue and the "Assessment of RegO® Products with regard to Directive 94/9/EC (ATEX)" d.d. 15 April 2005, Lloyd's Register as Notified Body 0038 has performed the following activities

- check classification equipment according ATEX 95

According to the above mentioned documents, we conclude that the products are not within the scope of Directive 94/9/EC.

This statement is valid until the expiry date, unless declared expired or withdrawn by Lloyd's Register Nederland B.V.

To require prolongation of this statement a request can be applied to Lloyd's Register Nederland B.V.

This statement is not valid for equipment of which the design or production method have been altered such that it is not within the tolerances of this statement. With respect to the validity of this statement the manufacturer has to inform the authority as mentioned in this statement concerning every change of the pressure equipment.

Hope to have offered you an appropriate statement,

With kind regards,
Lloyd's Register Nederland B.V.

K. Koenen
ATEX Engineer
